SKILLS

Languages: JavaScript | TypeScript | C# | Swift | Kotlin | SQL | HTML | CSS | SCSS

Frameworks & Deployment: React | Node.js | .NET | Google Play Console | App Store Connect

Tools & Technology: Adobe Creative Suite | Visual Studio | SourceTree | GitHub | BitBucket | Azure DevOps | Postman | MongoDB | Docker | Confluence | Jira | MySQL

EXPERIENCE

Software Engineer | Viagio Technologies   Aug 2022 – Nov 2023

- Built front-end features for a continuing education app for family physicians, such as language selection, dark mode, quiz performance tracking, and automated user account deletion using Kotlin and Swift. Ensured on-time delivery, and was recognized by colleagues for adaptability and initiative
- Utilized MySQL for querying database tables, uncovering and addressing discrepancies that resulted in application issues, and integrated new data into the front-end
- Automated data exports using Google Sheets API, reducing the client's daily clicks in a JavaScript and .NET 4.7.2 web application
- Leveraged quality assurance testing techniques, utilizing Postman, IDE breakpoints, and command-line interfaces, facilitating faster bug identification and correction
- Analyzed code reviews and pull requests to ensure code quality

Associate Software Engineer | Viagio Technologies   Apr 2022 – Aug 2022

- Successfully migrated a legacy C# desktop application from .NET Framework 4.5 to 4.8, enhancing system stability and preventing the application from becoming obsolete
- Upgraded a C# application from .NET Core 2.1 to .NET 6, overhauled build configurations, repaired deprecated LINQ statements, and managed dependencies to fix upgrade-induced bugs
- Created detailed documentation on application architecture and functionality

Graphic Designer | Corporate Copy Print   Jun 2021 – Mar 2022

- Leveraged Adobe Creative Suite for designing advertising materials and product graphics, enhancing client engagement that led to repeat business and contributed to the growth of our team's department.

EDUCATION

LaunchCode, LC101 | Full-Stack Web Development Course   2022

- https://link.youfoundzoe.com/Tech-Interview
- HTML, CSS, SQL, Javascript, Typescript, Java, Spring, Springboot, React.
- Portfolio project: built a personal CRM using TypeScript, React, and Firebase.

Kansas City Art Institute | Bachelor of Fine Arts, Design   2021
